

# Jansen+co

A photograph of a dining table set with a yellow teapot, several colorful mugs (red, blue, green, yellow), and a small red and grey container. The table is round and light-colored wood. In the background, there is a window with horizontal blinds, a black pendant lamp, and a wooden shelf with several potted plants. The scene is brightly lit, suggesting a sunny day.

Dear Jansen+co friends,

In this catalogue we will show you new highlights of our Autumn 2011 collection. There are great additional designs to the existing successful My Mug range.

This collection is designed by Anouk Jansen and is made of high quality ceramic. These products combine industrial production with hand finishing. For example, all handles are hand painted. These are available in bright colours and urban tones. This assortment enables you to create your own special colour combinations. My Mugs are available in three sizes.

With love from Amsterdam

To view our complete collection please visit our website

Our bright coloured contemporary cake stands are perfect to present your home-made cakes, or chocolate treats. If you prefer a more healthy route, try fruit or veggie snacks; they look great too.

The design of the My Mug is the result of our quest for the perfect mug. Made of high quality ceramic, this mug is suitable for all kinds of coffees, teas or hot cocoas. The shape is classic with a twist. "My Sugar Bowl" and "My Milk Jug" complement this range.

The tea towel is beautifully woven in traditional linen with bright coloured patterns, based on iconic original washing instruction label. This is available in red, pink, blue and now in green; as you can see the green version matches perfectly with the green My Mug.

Leave the tea towel to soak in a bucket of cold water for one night, after this it will dry your dishes amazingly well. This Amazing Teatowel has won the Design Plus award 2011.

This elegant handmade oil and vinegar set is designed by tsu.R; he takes his inspiration from familiar, everyday items. A funnel and cleaning brush are included; we are practical people at Jansen+co!

Fresh lettuce leaves are the inspiration for these light, frosted plastic bowls. These are useful in the kitchen for salads, fruit or vegetables; freshen up your dinner table. Great for BBQ's and picnics.

These handmade silicone trivets combine our love of traditional Dutch Delftware and practical, modern materials. This functional and decorative product has a special tactile appeal.

The Ming Salt and Pepper grinders are inspired by the perfect proportions of ancient Chinese ceramics. The satin finished wood body houses are high quality, long lasting grinder. A new classic!

Jansen+co is a young Dutch design company founded by Anouk Jansen and Harm Magis.

Based in Amsterdam, Jansen+co designs, develops and produces functional table top and kitchen products.

The design is contemporary, quirky and original, made with high quality durable materials. Products are unique, with innovative use of materials technology and vision.

# + contact
