Bowls & Spoons by Ineke Hans

These are my bowls & spoons. The spoon fits in the handle of the bowl, so the two can be held with just one hand. Very practical when you're not eating at the dining table. Practical for cereal, soup or noodles. Enjoy my thoughts for food.

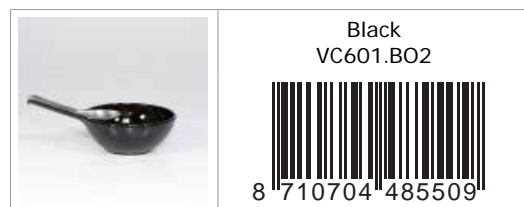

Unique Selling Points

- Hold the bowl and spoon together in one hand
- Your spoon does not slip into your soup anymore - no more dirty spoons or hands
- The stainless steel spoon fits in the handle of the ceramic bowl
- Multifunctional: eat your soup, use as a sauce boat or for serving small snacks

Water Carafe by Arian Brekveld

This is my water carafe. This water carafe is self cooling whilst standing on your garden table. By natural evaporation, the temperature of the water inside will drop. Enjoy my thoughts for food.

Water Carafe
VC703.001

Unique Selling Points

- Self-cooling water carafe by natural evaporation (through the pores of the terracotta)
- The warmer the carafe becomes through sitting in the sun, the better it cools the water
- Silicone ring to protect the table from scratches

Product Specifications

	Water Carafe
Designer	Arian Brekveld
Materials	Terra Cotta, Silicone

Iced Carafe

by Officeoriginair

This is our Iced carafe. Fill the carafe to the indication level and put it in the freezer, then take out of the freezer and fill with water. Now your carafe will give you instantly chilled water from the first to the last glass. The ice will be released to float in the water after a while. These are our thoughts for food.

Iced Carafe Warm Grey
VC704.WGR

Unique Selling Points

- All guests will receive a chilled drink – rather than the first person receiving all the ice cubes as with a traditional carafe/ice cubes
- Your drink is chilled immediately
- Keep your Iced Carafe in your freezer ready for those unexpected guests

Product Specifications

Cutting Board by Nikolai Carels

This is my cutting board. The curved sides allow you to pick up the board easily and help you guide chopped food into your pan. Both sides of the board can be used. Enjoy my thoughts for food.

Unique Selling Points

- No more ingredients falling on the floor as you slide them into your pan
- The two-coloured sides help you remember which side you cut your meat or vegetables on – no cross-contamination
- Lightweight
- Non-slip feet stop the board moving around as you chop but also muffle the noise of the board on your work surface

Product Specifications

Garlic Crusher

by Ineke Hans

This is my garlic crusher. Just crush the garlic clove with the flat side and spread out the contents by rolling over it. Witness those flavours. Use the crusher as soap under a running tap to get rid of your smelly hands. Enjoy my thoughts for food.

Unique Selling Points

- Better flavour of garlic;
- Use the whole clove – no more cutting of the two ends and losing half the clove
- Use the stainless steel crusher as soap to prevent smelly hands
- Can also be used to crush various herbs and ginger

Product Specifications

Chopping Board

by Jan Hoekstra

DESIGN PLUS

This is my chopping board. It can be used on both sides and the rubber corners allow you to store the board on its side without it sliding off the work surface. The measuring scale allows you to chop equal portions of your food. Enjoy my thoughts for food.

Unique Selling Points

- Two-sided chopping board
- Non-slip feet stop the board sliding when stored on its side on your work surface
- Measuring scale to slice equal portions of your ingredients
- The soft rubber feet will considerably reduce the noise and prevent damage to your counter whilst chopping your food

Nut Cracker by Ineke Hans

This is my nut cracker. When the cracker is twisted, the nut stays in the container and can be cracked just to the level you need in order to peel off the shell. No more sudden cracks with bits and pieces of nuts flying past your eyes. These are my thoughts for food.

Unique Selling Points

- Crack the nut to the level you want – you can see what is happening through the reinforced plastic
- No more sudden cracks with bits and pieces of nuts flying past your eyes
- No hidden strength required to enjoy nuts!
- The lid works two ways: for small nuts such as hazelnuts and for larger nuts such as walnuts

Serving Tray

by Gijs Bakker

DESIGN PLUS

This is my serving tray. You can hold this self-balancing tray in just one hand without spilling your drinks. To store the tray, simply fold the handle. Enjoy my thoughts for food.

Unique Selling Points

- The Serving tray can be carried with one hand – leaving the other free to open doors, serve drinks, shake hands.
- Safer since you carry the tray beside you and not in front of you – you can look where you are going when walking down stairs
- Non-slip coating means glasses won't slide around on the tray
- Foldable handle for easy storage

Table Bin

by Officeoriginair

This is our Table Bin. Collect all your food waste during your outside (BBQ) dinner party. Stack dirty dishes on top of the lid and put your cutlery in the side pocket. Now, take it all in one go! That's our thoughts for food.

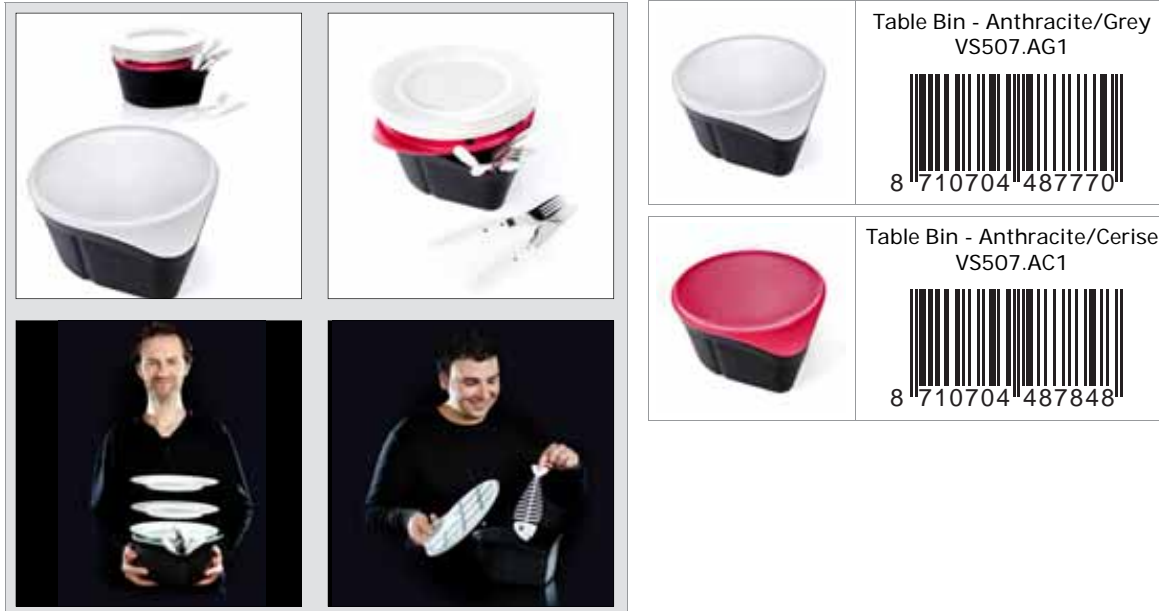

Table Bin - Anthracite/Grey VS507.AG1

Table Bin - Anthracite/Cerise VS507.AC1

Unique Selling Points

- Collect food scraps and leftovers during outdoor BBQ or mealtime.
- Carry clean crockery and cutlery outside in a clever way.
- Separates cutlery, food waste and plates afterwards for easy transport.
- Use as temporary waste bin while preparing food at any location.
- Anti slip on lid to protect plates from sliding.
- Anti slip around the bin for good grip.

Bowl XXL

by Ineke Hans

This is the Bowl XXL, the big brother of my series of bowls. Handled with one hand, very practical especially when you're not sitting at the dinner table. Excellent for eating pastas, noodles, rice and curries. Enjoy my thoughts for food.

Unique Selling Points

- Like the Bowls & Spoons the Bowl XXL can be held in one hand.
- Specially designed for eating pasta, noodles, rice and curries.
- Enjoy eating the "Asian way" with the included chopsticks.
- Suitable for microwave ovens.

Boomerang Wok

by Nikolai Carels

DESIGN PLUS

Using the Boomerang Wok your food always returns into your pan. Because of the unique patented edge shape Stir-Frying has never been that easy! A simple push towards the curved edge makes the food turn to be cooked on all other sides. The skills of the Chef are now embedded in the pan. No more tossing of that heavy pan. Let the "Boomerang" Wok do the work. Beside the fact that the Boomerang Wok eases the stir frying cooking method, the pan is ideal for rotating other kinds of food like eggs, fish and meat.

Boomerang Wok 32 cm
VP1SF.832

8 710704 488326

Unique Selling Points

- Turns food with a single push.
- Keeps the food inside.
- Usable for all kinds of food which need to be flipped during cooking.
- Serve food with a single scoop.
- Patented Food Turning Method.
- Teflon® Platinum Plus for low-fat baking.
- Maximum heat distribution.
- Suitable for the oven up to 160 °C.

Dish Drainer GEO

by Jorre van Ast

The Dish Drainer is ideal when you only have a small amount of washing up to do, or when the dishwasher is becoming overloaded. Geo comes into its own when you have to make the difficult choice between washing up 'that' dirty frying pan or 'those' four dirty plates! The Geo has been nicely designed with a scene with which we all should be familiar from our geography classes!

Unique Selling Points

- Ideal for a small amount of washing-up
- Secure fit next to the sink.
- Intergrated spout for easy draining.

Citrance

by Quentin de Coster

This is my Citrance. A double sided hand juicer which can be placed straight onto your glass. The built in funnel not only guides the juice into the glass, it also filters out the seeds. Use the rounded side for big oranges or grapefruits and the pointy side for lemons or limes. So, with the Citrance you save a whole step compared to traditional juice squeezing. Now that's what I call " thoughts for food".

Unique Selling Points

- Juicer is placed directly on the glass.
- Double ended design for squeezing all kinds of citrus fruits, such as limes, lemons, grapefruits and oranges.
- The built in central funnel directs the flow of juice neatly into the glass without spillage whilst sifting out any seeds.
- Made out of dishwasher safe polypropylene.

Candle Holder ELAS

by Jorre van Ast

This is my Candle Holder ELAS. A nice and gentle candle holder which will bring instant ambience to your home. The flexible shaft makes it easy to fit in candles of various thicknesses without having to resize them. With the beautiful metal bottom weight tradition really meets design in a new way. That's my thought for mood.

			<p>Candle Holder ELAS White VC320.WHI</p>  <p>8 710704 488524</p>

Funnel Friends

by Roger Arquer

These are my Funnel Friends. A multi useable cross over set between funnels and containers which will bring unlimited possibilities in and outside the kitchen. Uses include scooping grains and funnelling liquids through to measuring and transferring many food contents. Shaped like little creatures so make sure you feed them well! That's my thought for food.

Unique Selling Points

- The smallest funnel is ideal for transferring liquids, for example while decanting wine or filling spice jars like a salt and pepper mill. Because of the oval shaped spout a vacuum is prevented when pouring which improves the flow of liquids.
- The medium funnel is ideal for transferring not only liquids but also ingredients as sugar, rice and other grain. The open shape is perfect for scooping large quantities of ingredients and transferring them through the spout in smaller quantities as desired.
- The large funnel can be used both to store and pour large amounts of liquid, for example lemonade and pancake batter. This makes the funnel multi usable.
- Made out of dishwasher safe plastic.

GENERAL CONDITIONS OF SALE AND DELIVERY

B.V. KONINKLIJKE VAN KEMPEN & BEGEER

thoughts for food

1. Definitions

- 1.1 In these general conditions ('Conditions'), the following terms have the following meanings:

VKB: B.V. Koninklijke Van Kempen & Begeer, having its registered office in Zoetermeer, the Netherlands;

Purchaser: Each natural person or legal person on whose order VKB supplies products or with whom VKB enters into an Agreement or with whom VKB negotiates the conclusion of an Agreement;

Agreement: Each agreement concluded between VKB and the Purchaser, each amendment or addition thereto, as well as all (juristic) acts in preparation or implementation of that agreement;

Products: all goods that are the subject of an Agreement;

Order: each order of a Purchaser, in whatever form.

2. Applicability

- 2.1. These general conditions apply to each offer from and each agreement with VKB.
2.2. The applicability of general conditions of the Purchaser is expressly excluded by VKB.

3. Offers, conclusion of Agreements and quotations and specifications regarding Products

- 3.1. An offer or (price) quotation of VKB does not bind it and is only an invitation to the Purchaser to place an Order.
3.2. An Agreement can only be concluded if and insofar as VKB accepts an Order of the Purchaser in writing or VKB carries out an Order, unless the Purchaser proves that VKB has accepted the Order of the Purchaser in any other way – and fully and unconditionally. If VKB delivers a performance on request before full agreement about the price and payment conditions applicable to that performance has been reached, the Purchaser will pay VKB in accordance with VKB's then applicable rates, with due observance of the provisions of Articles 5 and 6.
3.3. Although VKB exercises due care when providing numbers, measurements, weights and/or other specifications regarding the Products, it cannot guarantee that deviations will not occur. Samples, drawings or models shown or provided only serve to indicate the Products. If the Purchaser proves that the Products delivered or provided deviate so much from the statements, samples, drawings or models provided or shown by VKB that he cannot reasonably be obliged to purchase, the Purchaser will have the right to terminate the Agreement, provided only to the extent that that termination is reasonably necessary.

4. Amendments and additions

- 4.1. Amendments and additions to any provision of an Agreement and/or the Conditions can only be agreed in writing.
4.2. If an amendment and/or addition as referred to in paragraph 1 is agreed, that amendment or addition only applies to the Agreement concerned.

5. Prices and VAT

- 5.1. All prices of VKB are expressed in euros and excluding turnover tax, all this unless specified otherwise. Unless stated otherwise in VKB's brochures, price lists or other promotional material or unless expressly agreed otherwise, the costs of special arrangements regarding packaging and shipment, the costs of customs and excise, as well as all (other) levies or taxes imposed or levied in respect of any performance will be charged separately to the Purchaser.

6. Payment

- 6.1. If Products are delivered, the Purchaser must pay VKB the amounts charged to him in the currency stated in the invoice at the time of delivery of those Products, unless agreed otherwise in writing. All payments must be made at VKB's office or into a giro account or bank account designated by it, such at VKB's discretion.
6.2. Objections to invoices, specifications, descriptions and prices, if any, must be made known to VKB in writing within 10 days. If this is not possible due to a cause beyond the Purchaser's control, the Purchaser must at any rate inform VKB of his objections in writing as soon as reasonably possible.
6.3. All amounts charged to the Purchaser must be paid without discount or deduction.
6.4. The Purchaser is not entitled to set off a claim on his part against a claim of VKB, unless he is permitted to do so pursuant to a final judicial decision or arbitral award.
6.5. The Purchaser is not entitled to suspend his obligations, unless the Purchaser submits the dispute to the court with jurisdiction in accordance with Article 18.3 within 30 days of the relevant obligations having become due and payable.
6.6. If VKB has or may have obvious misgivings about the creditworthiness of the Purchaser from time to time, and/or if the Purchaser repeatedly fails to pay correctly or in good time and has been warned by VKB on that account, VKB will be entitled to demand, before delivering any (further) performance, also within the framework of current agreements, that the Purchaser pays the purchase price of the Products in advance or furnishes adequate security in an amount equal to what VKB may claim from the Purchaser under the Agreement, including also cash conditions and conditions of documentary credit, such as irrevocable letters of credit, cash against documents or cash against delivery, in accordance with standard business practice.
6.7. The Purchaser owes interest equal to the 1-month rate of the Euro Interbank Offered Rate, increased by 3% (calculated on an annual basis), on all amounts not paid on the last day of the payment

term, from that last day, without notice of default being required. After the end of each month, the amount on which the interest is calculated is increased by the interest due for that month.

- 6.8. If the Purchaser has still not paid the amount and interest due after the expiry of a further payment term, the Purchaser will be obliged to compensate VKB for all extrajudicial and judicial costs, including the reasonable costs of legal assistance. If VKB grants the Purchaser a postponement for delivering any performance, as a goodwill gesture or for any other reason, the new payment term is always a strict deadline.

7. The term of delivery

- 7.1. The term of delivery for products stated by VKB is based on the circumstances applicable at VKB at the time of the conclusion of the Agreement and, insofar as related to the performances of third parties, to the data provided to VKB by those third parties. VKB will as much as possible observe the term of delivery and/or the term of performance.
7.2. The aforementioned terms commence on the date of the written order confirmation by VKB. If VKB needs data or tools to be provided by the Purchaser for the performance of the Agreement, the terms commence on the date on which all the required data or tools have been received by VKB, but not before the date of the written order confirmation.
7.3. The Purchaser must ensure that nothing for his part precludes observance of certain agreed terms, including the terms of delivery and acceptance.
7.4. The Purchaser will not be entitled to any damages if a term is exceeded, unless there is question of intent or gross negligence of VKB or its managerial staff. Nor will the Purchaser be entitled to terminate the Agreement, unless the exceeding of the term is such that the Purchaser cannot reasonably be required to maintain (the relevant part of) the Agreement. If that is the case, the Purchaser, after giving notice of default with a reasonable further term for performance, will be entitled to terminate the Agreement by registered letter, provided only insofar that that is strictly necessary.
7.5. VKB may at any time deliver the Products in consignments.

8. Delivery and risk

- 8.1. If this is expressly stated in the offer or the order confirmation and has subsequently been agreed, the delivery of the Products, including the costs of the delivery and the passing of the risk, is in accordance with standard business conditions, such as EXW, f.o.b., c.i.f., c.f.r. etc., and in such cases always subject to the Incoterms 2000 of the International Chamber of Commerce in Paris.
8.2. If the conditions mentioned in the previous paragraph have not been agreed, the delivery and the passing of the risk in respect of the Products and the packaging thereof are always in the place where and at the time at which the products are ready for shipment to the Purchaser ('ex works'). VKB will inform the Purchaser as soon as possible of the above-mentioned time and place and the Purchaser will accept the Products as soon as possible, but not later than 8 days after the notice.
8.3. If the Purchaser fails to accept the Products (in time) for a legally invalid reason, he will be in default without notice of default being required. VKB will then be entitled to store the Products at the expense and risk of the Purchaser. The Purchaser will continue to owe the purchase amount, increased by interest and costs by way of damages.
8.4. If an item (for example show cases or show racks or promotional material) is made available to the Purchaser without the item being sold, all (intellectual) property rights remain vested in VKB, also if the Purchaser pays a fee, but the item will be entirely at the expense and risk of the Purchaser from the time it has left VKB's business premises. The Purchaser must arrange full insurance for the items concerned in favour of VKB and must make the policy schedule available for inspection at VKB's request.

9. Force majeure

- 9.1. If VKB is unable to fulfil its obligations towards the Purchaser due to a non-attributable failure (force majeure), the obligations concerned will be suspended for the duration of the force majeure situation.
9.2. If the force majeure situation has lasted at least three months, both parties will be entitled to terminate the Agreement in writing, wholly or in part.
9.3. Force majeure in relation to VKB means each circumstance independent of VKB's will as a result of which fulfilment of (the relevant part of) its obligations towards the Purchaser is prevented, delayed or made uneconomical or as a result of which the fulfilment of those obligations cannot reasonably be required of VKB, including without limitation, strikes, transportation disturbances, riots and war, acts of God, theft, wilful damage, fire and non-performance or untimely performance by suppliers of VKB.
9.4. The parties will inform each other as soon as possible of a (possible) force majeure situation.

10. Retention of title

- 10.1. Notwithstanding the actual delivery, the ownership of the Products does not pass to the Purchaser until after he has paid in full all that he owes or will owe VKB for the Products delivered or to be delivered pursuant to the Agreement, including the purchase sum, any surcharges due pursuant to these Conditions or the Agreement, interest, taxes and costs, **>as well as any work done or to be done pursuant to such an Agreement.
10.2. Each amount received from the Purchaser will first be applied to pay the claims VKB may have against the Purchaser with regard to which VKB has not stipulated a retention of title in paragraph 1. Next, each amount received from the Purchaser will be applied to pay all interest and costs that may be due, as referred to in 6.8.
10.3. Before the ownership of the Products has passed to the Purchaser, the Purchaser will not be entitled to hire the Products out to third parties or give them in use or pledge them to third parties, or

- otherwise encumber them in favour of third parties. The Purchaser will only be entitled to sell and deliver the products owned by VKB to third parties, insofar as necessary within the framework of the Purchaser's normal business operations.
- 10.4. The Purchaser must keep the Products delivered subject to retention of title carefully and identifiable as property of VKB and insure them fully in favour of VKB. On VKB's demand, the Purchaser must provide VKB with a copy of the policy schedule.
- 10.5. If and as long as VKB is the owner of the Products, the Purchaser must immediately inform VKB if any part of the Products has gone lost or is damaged or if (any part of) the Products (is) are seized and/or otherwise claimed. In addition, the Purchaser must inform VKB on demand of the location of the Products of which VKB is the owner.
- 10.6. In case of a seizure, a (provisional) moratorium or a liquidation, the Purchaser will immediately inform the seizer, the bailiff, the administrator or the receiver of the (ownership) rights of VKB.
- 11. Intellectual property**
- 11.1. VKB declares that, to the best of its knowledge, the Products do not infringe on valid intellectual property rights of third parties.
- 11.2. If VKB manufactures or has manufactured Products on the specific instructions of the Purchaser on the basis of a design not originating from VKB, the Purchaser will indemnify VKB in respect thereof against all infringements of intellectual property rights of third parties.
- 11.3. The Purchaser guarantees that he will not infringe on the intellectual property rights of VKB or its suppliers in respect of the Products (and will not allow or enable third parties to do so), for example by copying, adapting or imitating the Products.
- 12. Inspection and complaint**
- 12.1. The Purchaser is obliged to inspect or have inspected the Products meticulously immediately on arrival at the place of destination or, if earlier, on receipt by himself or a third party acting on his behalf. Any complaints about defects in the Products in terms of material or workmanship, as well as about differences in terms of amount, weight, composition and quality between the Products delivered and the relevant description on the order confirmation and/or the invoice must be made known to VKB in writing within 10 days of arrival of the Products. Defects that could not reasonably have been established within the above-stated term must be reported to VKB in writing immediately after having been established or at any rate within six months of arrival of the Products.
- 12.2. The Purchaser will give VKB all assistance required by it for the investigation of the complaint.
- 12.3. The Purchaser has no right to complain about Products if investigation of the complaint by VKB is impossible.
- 12.4. The Purchaser is not free to return the Products before VKB has given its written permission. The reasonable costs of returning will then be borne by VKB. The Products remain at the Purchaser's risk until they are under VKB's control.
- 12.5. Defects with regard to a separate lot of Products that is part of a delivery consisting of one or more lots only entitles the Purchaser to termination of the entire Agreement if the Purchaser cannot reasonably be required to maintain the remaining part of the Agreement.
- 12.6. The Purchaser may not enforce claims arising from complaints about defects of Products against VKB, so long as the Purchaser has failed to fulfil any related obligation towards VKB.
- 12.7. If a complaint has been made in time, correctly and in accordance with the provisions of this article and it is in VKB's reasonable opinion sufficiently proven that the Products do not fulfil the agreed requirements, VKB will, at its own discretion, replace the Products that appear to be defective by new Products on returning of the defective Products or repair the Products concerned skillfully or give the Purchaser a discount off the purchase price determined in mutual consultation. By delivering one of the above-mentioned performances, VKB will be fully discharged and VKB will not be obliged to make any (further) (damage) payment.
- 13. Warranty**
- 13.1. The Products are warranted to be free from defects in material and workmanship for a period of 12 months after delivery. The warranty means that VKB will, at its discretion, repair or replace the Products at its expense. All products replaced become the property of VKB.
- 13.2. The warranty does not apply if the defects are (partially) due to incorrect, careless or inexpert use or represent normal wear and tear for the period of use.
- 13.3. VKB does expressly not warrant recommendations or advice regarding the use of the Product from third parties, nor does VKB warrant such recommendations or instructions from the Purchaser to its customers.
- 14. Liability and indemnification**
- 14.1. VKB will never be liable for any indirect damage of the Purchaser or third parties, including also consequential damage, immaterial damage, trading loss and environmental damage.
- 14.2. VKB's liability towards the Purchaser, on whatever ground, per event (a series of related events counting as one event) is therefore limited to the relevant contract sum (excluding VAT). If it is not possible to designate a contract sum, VKB's liability will be limited to the amount it receives in the case from its corporate liability insurer. The liability is in all cases limited to a maximum amount of 250,000 euros.
- 14.3. The limitations of liability in the paragraphs 1 and 2 do not apply insofar as the damage concerned is due to intent or gross negligence of VKB or its managerial staff or insofar as VKB's liability arises from mandatory law regarding product liability.
- 15. Other obligations and responsibilities of the Purchaser**
- 15.1. The Purchaser must provide VKB with all the information required for the performance of VKB's duties in good time and guarantee that it is correct and complete.
- 15.2. The Purchaser shall not in whole or partially remove or make invisible brand names and/or other identifying marks affixed to the Products.
- 16. Termination**
- 16.1. In the event of a (provisional) moratorium, liquidation, interruption or winding-up of the business of the Purchaser, VKB will be entitled to terminate all agreements with the Purchaser, unless VKB informs the Purchaser within a reasonable period of time that it requires performance of the relevant Agreement, in which case VKB will be entitled, without notice of default being required, to:
- suspend the performance of the relevant Agreement(s) until payment is sufficiently secured; and/or
 - suspend all its obligations towards the Purchaser, if any, all this without prejudice to VKB's other rights under any Agreement with the Purchaser and without VKB being obliged to pay any damages.
- 16.2. If the Purchaser fails to fulfil any obligation arising for it under any Agreement properly or within a stipulated period or otherwise on time, the Purchaser will be in default and VKB will be entitled, without notice of default or judicial intervention being required, to:
- suspend the performance of that Agreement and agreements related with it until payment is sufficiently secured; and/or
 - terminate in whole or partially that Agreement and agreements related with it,
- all this without prejudice to VKB's other rights under any Agreement with the Purchaser and without VKB being obliged to pay any damages.
- 16.3. If an event as referred to in paragraph 1 or paragraph 2 occurs, all claims of VKB against the Purchaser and the above-mentioned claims under the agreement(s) concerned will become immediately and fully due and payable and VKB will be entitled to take back the Products concerned. VKB and its authorized representatives will then be entitled to enter the sites and buildings of the Purchaser to take possession of the Products. The Purchaser will be obliged to take the necessary measures to enable VKB to effect its rights.
- 17. Assignment of rights and obligations**
- 17.1. VKB may assign the rights and obligations described in any Agreement with the Purchaser to a third party. If VKB intends to transfer its obligations, it must inform the Purchaser of that intention in advance and the Purchaser will have the right to terminate the Agreement. VKB will not be obliged to make any (damage) payment.
- 17.2. The Purchaser may not assign his rights and/or obligations under an Agreement to a third party without the prior written consent of VKB.
- 18. Application law, duty of disclosure and competent court**
- 18.1. These Conditions as well all agreements and all disputes arising from them or related to them are governed by Dutch law.
- 18.2. If these Conditions apply in an international relationship with the Purchaser, the latter must always immediately inform VKB of any provisions of these Conditions that cannot be enforced in the country of the Purchaser. Provided approved by VKB in advance, VKB will then bear the reasonable costs of any required external legal investigation. Insofar as the Purchaser fails to comply with the provisions of the first sentence of this paragraph, he may not invoke the possible non-enforceability in or out of court and must indemnify VKB against any damage resulting therefrom, unless VKB has refused to pay the reasonable costs as referred to above.
- 18.3. Provided that applicable national or international rules of law do not prescribe otherwise as mandatory, all disputes between the parties will in the first instance only be submitted to the competent court in The Hague, without prejudice to VKB's right to submit the dispute instead to the court otherwise competent pursuant to national or international rules of law.
- 18.4. The applicability of:
- The United Nations Convention on Contracts for the International Sale of Goods; Vienna, 11 April 1980 (Vienna Sales Convention); and
 - The Convention on the Law Applicable to Contracts for the International Sale of Goods; The Hague, 22 December 1986 (The Hague Convention on Applicable Law International Sales), is expressly excluded by the parties.
- These General Conditions have been filed with the Chamber of Commerce in The Hague and will be sent to the Purchaser on demand, free of charge.
